

ACID PEELS

Repair damaged skin and restore your healthy, youthful glow with a vitamin and antioxidant packed peel performed by one of our expert estheticians. Our peels improve overall skin quality by addressing your unique facial condition and giving your skin a healthy dose of the nourishing ingredients it needs.

Eminence® Arctic Berry Peel | \$80

Target aging, hyperpigmentation, as well as sensitive, rosacea and acne prone skin. This innovative 3-step peel and peptide system awakens the skin's natural inner beauty using an exquisite blend of arctic berries, lingonberry seed oil and hibiscus seed extract.

Eminence Salicylic Acid* | \$80

This treatment targets pore congestion, rapidly removing blockages to help minimize the look of breakouts. Suitable for all skin types, this peel exfoliates and refines skin for a visibly rejuvenated appearance.

* Services not performed on pregnant clients.

Eminence® Yam & Pumpkin Enzyme Peel | \$80

This organic enzyme peel is loaded with a multitude of vitamins, beta carotene and antioxidants, while pumpkin and yam repairs damage to the skin caused by environmental factors and aging. This treatment gives amazing results without damage or irritation with just one treatment! Increases collagen and plumps the skin for a more youthful glow.

Luxe Green Tea* | \$80

This peel performs well on all skins by combining green tea, lactic acid, wheat grass and aloe vera to restore a bright and youthful glow. Expected results may include but aren't limited to improvement in breakouts, hyperpigmentation and dehydration on even the most sensitive skin.

* Services not performed on pregnant clients.

AdvancedRenewal Peel* | \$80

Glycolic Acid reduces the appearance of hyperpigmentation, fine lines and wrinkles.

* Services not performed on pregnant clients.

AGEreversal Peel* | \$80

TCA peel minimizes the appearance of deep lines and wrinkles to address advanced signs of aging.

*Services not performed on pregnant clients.

PowerClear Peel* | \$80

Salicylic Acid, Mandelic Acid, Malic Acid, and a patented Terpineol-Thymol Complex target blemishes, redness and post-inflammatory hyperpigmentation.

* Services not performed on pregnant clients.

UltraBright Peel* | \$80

Lactic Acid peel brightens and hydrates, reducing the appearance of early signs of aging and helping to even skin tone.

* Services not performed on pregnant clients.
